

## **SAVE THE DATE!**

# ***4<sup>th</sup> International Symposium The Effects of Climate Change on the World's Oceans***

**June 4-8, 2018 Washington DC**

The **4<sup>th</sup> International Symposium** will bring together experts from around the world to better understand climate impacts on ocean ecosystems – and how to respond.

Organized by ICES, PICES, IOC, NOAA Fisheries and other sponsors,  
**the 2018 Symposium will:**

- ***Highlight the latest information*** on how oceans are changing, what's at risk and how to respond,
  - ***Identify key knowledge gaps***
  - ***Promote collaborations***, and
- ***Stimulate the next generation*** of science and actions.

Initiated in 2008, this 4<sup>th</sup> Symposium addresses the growing demand for information on what is changing, what's at risk and how to respond.

## **Join Us!**

The 2018 Symposium is a great opportunity for students, professionals, and organizations to share information, highlight activities, build partnerships and shape the future of this important field.

### **The Symposium will include:**

- ***Outstanding sessions, presentations and posters***
- ***Opportunities for pre- or post-meeting workshops***
  - ***Sponsorship Opportunities***
- ***Special events for networking and early career scientists.***

***For more information and sponsorship opportunities see:***
