

Table of Contents

Section I - Practical Workshop Description

Introduction	1
Workshop overview	1
History of Working Group 8	1
Work Plan for the Vancouver Harbour Practical Workshop	2
Workshop products.....	11
Summary	12
Acknowledgements	13
References	13

Section II - Site Description and Oceanography

Vancouver Harbour	15
Thornbrough Channel (Howe Sound)	17
Victoria and Mission Point.....	17
Sources of contamination	18
Fisheries closures	18
References	19

Section III - Extended Abstracts

Contaminant Concentrations in Sediment and Biota

Environmental assessment of Vancouver Harbour: The results of an international workshop – trace metals

Tkalin, A.V., Lishavskaya, R.S., Kovekovdova, L.T., Simakon, M.V., Shulkin V.M., Bogdanova, N.N., Primak, T.L. and E.A. Slin'ko	23
---	----

Assessment of chemical contaminant exposure and effects in English sole

Stehr, C.M., Myers, M., Lomax, D., Boyer, R., Spencer, S. and J. Stein.....	26
---	----

Organochlorine and polyaromatic hydrocarbon residues in English sole, *Pleuronectes vetulus*, at Vancouver Harbour

Uno, S., Koyama, J. and H. Yamada	30
---	----

Organochlorine and polyaromatic hydrocarbon residues in bivalves at Vancouver Harbour

Uno, S., Koyama, J. and H. Yamada	35
---	----

Biochemical and Physiological Studies

Lipid class and fatty acid composition of mussel, *Mytilus trossulus*, in Vancouver Harbor

Uno, S., Yun, J.H., Kaneniwa, M., Koyama, J., Yamada, H. and K. Ikeda	43
---	----

CYP1A and related measurements in English sole (*P. vetulus*) from Vancouver Harbour

Miller, K.A., Addison, R.F. and S.M. Bandiera	47
---	----

Contamination of organotin compounds and imposex in molluscs from Vancouver, Canada

Horiguchi, R., Uno, S., Shimizu, M., Shiraishi H. and M. Morita	53
---	----

Community Studies

Changes in benthic communities along a presumed pollution gradient in Vancouver Harbour. Je, J.G., Belan, T., Levings, C.D. and B.J. Koo	57
Fish communities and life history attributes of English sole (<i>Pleuronectes vetulus</i>) in Vancouver Harbour Levings, C.D. and S. Ong.....	61
Marine environmental quality assessment using polychaete taxocene characteristics in Vancouver Harbour Belan, T.A.	64

Harmful Algae Studies

Harmful algae survey in Vancouver Harbour Yan, T., Zhou, M., Li, J., Yu, R., Tan, Z. and F. Wang	69
--	----

Section IV - Comprehensive Data Tables

Site Locations

Table 1 Trawl and sediment collection locations for the PICES Vancouver Harbour Practical Workshop Investigators: Dan Lomax, Carla Stehr, Colin Levings.....	75
Table 2 Intertidal site locations for Vancouver Harbour Practical Workshop Investigator: Toshihiro Horiguchi	76

Sediment Chemistry

Table 3 Sediment grain size Investigators: Jong Jeel Je, Colin Levings.....	77
Table 4 Total organic carbon in sediment Investigator: Carla Stehr (analyses done by Columbia Analytical Services, Inc.)	78
Table 5 Polycyclic aromatic hydrocarbons in sediment from Vancouver Harbour (ng/g, dry weight) Investigators: Jennie Bolton, Carla Stehr	79
Table 6 Quality assurance data for polycyclic aromatic hydrocarbons in sediment (ng/g dry weight) Investigators: Jennie Bolton, Carla Stehr	81
Table 7 PCB (chlorobiphenyl) congeners in sediment from Vancouver Harbour (ng/g dry weight) Investigators: Jennie Bolton, Carla Stehr	83
Table 8 Chlorinated pesticides in sediment from Vancouver Harbour (ng/g, dry weight) Investigators: Jennie Bolton, Carla Stehr	84
Table 9 Quality assurance data for chlorinated hydrocarbon analyses of sediment (ng/g dry weight) Investigators: Jennie Bolton, Carla Stehr	85

Table 10	Metals in sediment (dry weight) Investigators: Alexander Tkalin, Tatiana Lishavskaya.....	87
----------	---	----

Tissue Chemistry – Fish

Table 11	PCB (chlorobiphenyl) congeners (IUPAC) in liver of English sole from Vancouver Harbour (ng/g, wet weight) Investigators: Ms. Jennie Bolton and Ms. Carla Stehr	88
Table 12	Chlorinated pesticides in liver of English sole from Vancouver Harbour (ng/g, wet weight) Investigators: Jennie Bolton, Carla Stehr	90
Table 13	Quality assurance data for chlorinated hydrocarbon analyses of liver in English sole (ng/g wet weight) Investigators: Jennie Bolton, Carla Stehr	91
Table 14	Polycyclic aromatic hydrocarbons in liver of English sole (ng/kg wet weight) Investigator: Seiichi Uno	93
Table 15	Polycyclic aromatic hydrocarbons in muscle of English sole (ng/kg wet weight) Investigator: Seiichi Uno	94
Table 16	Polycyclic aromatic hydrocarbons in ovaries of English sole (ng/kg wet weight) Investigator: Seiichi Uno	95
Table 17	Polycyclic aromatic hydrocarbons in testis of English sole (ng/kg wet weight) Investigator: Seiichi Uno	96
Table 18	PCB congeners (IUPAC) (ng/kg wet weight) in liver of English sole Investigator: Seiichi Uno	97
Table 19	PCB congeners (IUPAC) (ng/kg wet weight) in English sole muscle Investigator: Seiichi Uno	99
Table 20	PCB congeners (IUPAC) (ng/kg wet weight) in English sole ovaries Investigator: Seiichi Uno	102
Table 21	PCB congeners (IUPAC) in English sole testis (ng/kg wet weight) Investigator: Seiichi Uno	105
Table 22	Organochlorine pesticides in liver of English sole (ng/kg wet weight) Investigator: Seiichi Uno	108
Table 23	Organochlorine pesticides in muscle of English sole (ng/kg wet weight) Investigator: Seiichi Uno	109
Table 24	Organochlorine pesticides in ovary of English sole (ng/kg wet weight) Investigator: Seiichi Uno	110
Table 25	DDT and its derivatives in testis of English sole (ng/kg wet weight) Investigator: Seiichi Uno	111
Table 26	Metals in muscle of English sole (dry weight) Investigators: Alexander Tkalin, Tatiana Lishavskaya.....	112

Tissue Chemistry – Bivalves

Table 27	Polycyclic aromatic hydrocarbons in bivalves (ng/kg wet weight) Investigator: Seiichi Uno	113
Table 28	Polycyclic aromatic hydrocarbons in <i>Mytilus trossulus</i> (ng/kg wet weight) Investigator: Seiichi Uno	114
Table 29	PCB congeners (IUPAC) in bivalves (ng/kg wet weight) at site I4 Investigator: Seiichi Uno	115

Table 30	PCB congeners (IUAPC) in <i>Mytilus trossulus</i> (ng/kg wet weight) Investigator: Seiichi Uno	117
Table 31	PCB congeners (IUPAC) in Pacific Oyster from site I6 (ng/kg wet weight) Investigator: Seiichi Uno	119
Table 32	Organochlorine pesticides in bivalves from site I-4 (ng/kg wet weight) Investigator: Seiichi Uno	121
Table 33	Organochlorine pesticides in <i>Mytilus trossulus</i> (ng/kg wet weight) Investigator: Seiichi Uno	122
Table 34	Metals in the mussel <i>Mytilus trossulus</i> (ppm dry weight) Investigators: Alexander Tkalin, Tatiana Lishavskaya	123
Table 35	Tributyltin (ng/g wet weight) in mussels (<i>M. trossulus</i>) from Vancouver Harbour Investigator: Toshihiro Horiguchi	124
Table 36	Tributyltin (ng/g wet weight) in all molluscs sampled from Vancouver Harbour and Victoria Investigator: Toshihiro Horiguchi	125

Lipid and Fatty Acids in *Mytilus trossulus*

Table 37	Lipid Composition in <i>Mytilus trossulus</i> (%) Investigator: Seiichi Uno	126
Table 38	Fatty Acids in <i>Mytilus trossulus</i> (%) Investigator: Seiichi Uno	127

Biochemical, Physiological and Histopathological Parameters

Table 39	Fluorescent aromatic compounds in bile of English sole as an indicator of aromatic hydrocarbon metabolites Investigators: Sylvester Spencer, Carla Stehr	131
Table 40	Quality assurance data for fluorescent aromatic compounds in bile of English sole Investigators: Sylvester Spencer, Carla Stehr	132
Table 41	Cytochrome P4501A activity and protein levels in liver microsomes of English sole Investigator: Stelvio Bandiera	133
Table 42	Cytochrome P4501A activity and protein levels in treated English sole Investigator: Stelvio Bandiera	136
Table 43	Vitellogenin in blood plasma from English sole (ng/ml plasma) Investigators: Dan Lomax, Munetaka Shimizu	137
Table 44	Imposex measurements in gastropods from Victoria and Mission Point Investigator: Zhengyan Li	138
Table 45	Imposex measurements in gastropods from Victoria and Mission Point Investigator: Toshihiro Horiguchi	143
Table 46	Imposex indices and tributyltin (ng/g wet weight) in gastropods from Victoria and Mission Point Investigators: Toshihiro Horiguchi	147
Table 47	Histopathology of liver, kidney, gonad and spleen in English sole from Vancouver Harbour Investigators: Mark Myers, Carla Stehr	148

Biological Community Data – Fish and Mussels

Table 48	Number of individual fish and invertebrates caught in each trawl from Vancouver Harbour	
	Investigator: Colin Levings	158
Table 49	Average biomass of fish for 100 square meters trawled	
	Investigator: Colin Levings	162
Table 50	Age of English sole, as determined from otoliths	
	Investigator: Colin Levings	167
Table 51	Stomach contents of English sole from Vancouver Harbour	
	Investigator: Colin Levings	171
Table 52	Length (cm) and wet weight (g) of <i>Mytilus trossulus</i>	
	Investigator: Jihyun Yun.....	173

Biological Community Data – Macrobenthos

Table 53	Species abundance (individuals/sample) in macrobenthos samples from Vancouver Harbour	
	Investigators: Jong Jeel Je, Tatyana Belan	181
Table 54	Biomass (g/sample) of macrobenthos collected in Vancouver Harbour	
	Investigators: Jong Jeel Je, Tatyana Belan	186

Harmful Algae

Table 55	Harmful Algal Bloom Study: Wet weight, dry weight, and average lethal time of mice injected with an extraction of shellfish samples	
	Investigator: Tian Yan	204
Table 56	Harmful Algal Bloom Study: Concentrations of paralytic shellfish poison measured	
	Investigator: Tian Yan	205
Table 57	Harmful Algal Bloom Study: Artemia assay results	
	Investigator: Tian Yan	205
